Protan®

COMFORT LINE

Breeding and technological progress as well as the ever increasing environmental requirements in pig breeding pose new challenges for breeders, but also opportunities.

Modern genetic lineages of pigs allow for very high production results. EKOPŁON offers products designed based on the latest knowledge in the field of nutrition, breeding and genetics.

COMFORT LINE – a line of products intended for farms with different breeding requirements. Products from this line ensure dynamic growth and development of pigs of various genetics and breeding methods.

The selected ingredients used, including active flavonoids, ensure very good health and vigor of the herd. They provide breeding comfort thanks to their properties.
