

Breeding and technological progress as well as the ever increasing environmental requirements in pig breeding pose new challenges for breeders, but also opportunities.

Modern genetic lineages of pigs allow for very high production results. EKOPŁON offers products designed based on the latest knowledge in the field of nutrition, breeding and genetics.

COMFORT LINE – a line of products intended for farms with different breeding requirements. Products from this line ensure dynamic growth and development of pigs of various genetics and breeding methods.

The selected ingredients ensure very good health and vigor of the herd. They provide breeding comfort thanks to their properties.

COMFORT LINE

PIGLETS

SuperMix PW 4% *

NEW IMPROVED FORMULA

Farmer's premix (MPU) recommended for piglets and weaners. Thanks to the proper balance of amino acids, vitamins, minerals, and feed additives, it provides full coverage of animals' demand for nutrients.

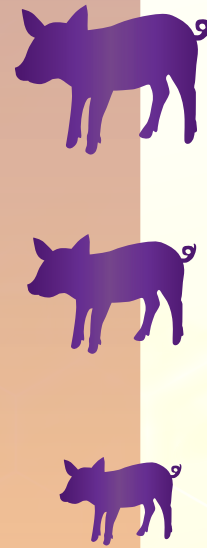

FEATURE BENEFIT

Composition of herbal extracts and betaine.	Healthy piglets.
Perfect balance of amino acids and vitamins.	Rapid growth.
Added selected feed enzymes.	Excellent digestibility and low feed consumption.

INGREDIENTS		SUPERMIX PW 4%*
J.M.		piglets and weaners up to 12 weeks of age
Lysine	g	100

PORKERS

SuperMix Immuno Max 2,5% *
SuperMix Tm Extra 2,5% *

NEW IMPROVED FORMULA

Farmer's premix (MPU) for porkers with diverse growth potential.

FEATURE BENEFIT

High level of nutrients.	Rapid growth.
Feed enzyme composition.	Excellent digestibility and low feed consumption.
Additive of betaine and ascorbic acid.	Lower declines due to high temperatures.
Attractive aroma.	Animals eat the feed eagerly.

INGREDIENTS		SUPERMIX IMMUNO MAX 2,5%*	SUPERMIX TM EXTRA 2,5%*

PORKERS

SOWS

SuperMix LP 2,5% *
SuperMix LK 2,5% *

NEW IMPROVED FORMULA

Farmer's premix (MPU) recommended for pregnant and nursing sows with good production potential on farms.

FEATURE BENEFIT

Feed enzyme composition.	Perfect digestibility and healthy strong bones.
Added iron in the form of a chelate.	Greater proportion in milk, greater vigor of piglets.
High levels of folic acid.	Excellent fetal development.
Attractive aroma.	Eager feed intake – good milk yield.
